"Out Of Control"

Visit "[Out Of Control](#)" on MotoLyrics.com

I'm out of, I'm out of
I'm out of, I'm out of
I'm out of, I'm out of
I'm out of, I'm out of
I'm out of control
Control, control, control
You know
I'm out of control
Control, control, control
You know
I'm out of control
You know

I thinking things will get better
With time, time
Well, I'm hoping it's soon
Before I lose my mind
It seems that miles are just
A little bit out of place
Like a scar in the night
And no stars in outer space, space

When I fall asleep tonight
I'll see you in my dreams, alright
Only them are divine
So alone in the dark
When I think about the past
I thought that our love would last
If I could just feel your flesh
For one last time

Remember when we used to be so right, right
Sorry if I forget what you look like
When we make believe, go to anymore
Just remember sweetheart, that I don't care

When I fall asleep tonight
I'll see you in my dreams, alright
Only them are divine
So alone in the dark
When I think about the past
I thought that our love would last

If I could just feel your flesh
For one last time

Oh, oh

When I fall asleep tonight
I'll see you in my dreams, alright
Only them are divine
So alone in the dark
When I think about the past
I thought that our love would last
If I could just feel your flesh
For one last time

I'm out of, I'm out of
I'm out of, I'm out of
I'm out of, I'm out of
I'm out of, I'm out of
I'm out of control
Control, control, control
You know
I'm out of control
Control, control, control
You know
I'm out of control
You know
