Mya:

Is it alright if I was too Fall way,  
way deep in love with you?  
Would it be safe to say  
That I'm well on my way-my way-my way  
I'm scared as hell (yeah)  
Know heartbreak all too well (yeah)  
Just gimme a green light baby  
Just say its okay  
To go in (go in-go in)

Baby Can I (Yeah) Baby Can I (Yeah)  
Baby Can I, Baby Can I  
Can I tear these walls down now  
Yeah, Yeah, Yeah  
Can I tear these walls down now  
Yeah, Yeah, Yeah  
Can I tear these walls down now

Trina:

I miss you, do you miss us? It's so much shit we gotta  
discuss  
When you think about me do you get stuck  
Cause when I think about you everything just  
Reminds me of when we had our first Christmas  
And I've been thinking we should talk about mistrust  
Cause it cuts and that hurts,  
If I could I would play it all backwards  
If you say it then you can't take back words  
My head pounds, my back hurts  
When you're going no one really knows  
But when you're lonely and feeling really cold  
What that do? Exactly, the same thoughts just keep  
coming at me  
You attract me, would that be? I'm not happy

Mya:

I'm scared as hell (yeah)

Know heartbreak all too well (yeah)  
Just gimme a green light baby  
Just say its okay  
To go in (go in-go in)  
Baby Can I (Yeah) Baby Can I (Yeah)  
Baby Can I, Baby Can I  
Can I tear these damn walls down now  
Yeah, Yeah, Yeah  
Can I tear these walls damn down now  
Yeah, Yeah, Yeah  
Can I tear these walls damn down now

Trina:

Love is danger, I never thought that I would share it  
with a stranger  
On a mission really thinking I could change ya, and if I  
did was I ready for the change up  
Wouldn't listen when he said remainder, be me, left  
there with my anger,  
Mistake, went the wrong way I prepare to have another  
long day, without you I go in  
I get mad, I throw things, temper tantrums, I want you,  
we can do it all again and i want  
to, What that do? Exactly, the same thoughts just keep  
coming at me  
You attract me, what that be? I'm not happy

Mya:

But I built these walls up  
They been here to protect me  
You say youre all I need now  
But Im looking at you crazy  
Cause the last time that I did this  
Damn near lost my mind  
And you say that I can do this, but really Can I?

Is it alright if I was too Fall way,  
way deep in love with you?  
Would it be safe to say  
That I'm well on my way-my way-my way  
I'm scared as hell (yeah)  
Know heartbreak all too well (yeah)  
Just gimme a green light baby  
Just say its okay  
And Im go in (go in-go in)
