I wanna take this time out from rapping right now
It's just something really personal to the world
I wanna dedicate this to my baby
Since I know he listening...Ima always be his girl
See Maybe yall havent been in love like I've been in love
And maybe you've never felt the things that I've felt
Se I've never had this tingle inside from a man
It feels like...he makes my heart melt
I mean the way that he looks at me...
It's a look that I've never got from another brotha
He's smooth, got swagg, concollector
and you know what else...
He's ah ---- good lover!
See he knows what it takes to keep a smile up on my
face
and he knows when I'm feeling comfortable and our
relationship is outta place
the taste of his lips
the swagg in his walk
how he so disiplined ambitious and the way that he
talks
AH CAPRICORN!
UM UM UM!
Stole my heart and I don't even want it back
He can have it...he can have it...he can have it...he can
have it
'cause he got it like that
So independent,focused,and he knows how ta love
Who would have dreamed in a million years it would be
you
The tenth sign of the zodiacs
one of the most serious _____
reliable, responsible, and the characteristic that I like
most is
Ladies, he's always ready...willing and _____

Now when God made him...I know He had to be in a
good mood
'cause my man gives me the upmost respect
and ladies he's never disrespectful
and he's never rude
Loving,caring,and giving

He's all of the above
I just wanna say THANK YOU GOD!
For giving me all I've been dreaming of
I feel like Cinderella when she found her prince
I can remember when I was looking for love but I aint
been looking since
My Capricorn...My Capricorn
His charm, his motivation, his patience
all combined together in one man...my man
Strong...but careful
of every move that he makes...all of the stuff that he
takes
Real...not Fake!
A Capricorn! The Capricorn!
That's all I ever needed...all I ever wanted
So I took this time outta my life...to let you know how I
was feeling
about my Capricorn
Baby I love you...your love is here for me
So wherever you are...whatever station that you're
listening to right now
I'm here
Somebody call my Capricorn home for me
or better yet, I'll do it myself
