You see me over here  
Party VIP  
I bet you wanna come and get face to face with me  
You wanna crash my party  
You wanna crash my party  
You wanna crash my party  
You wanna crash my party

Bottles poppin, body rockin, bitches all in my face  
Yeah I'm in the VIP but they invadin my space  
Damn, they see my sexy body  
And how I'm dancin naughty  
My girlfriends grindin on me  
We lookin like we shown it  
Rain, make it rain  
All the ballas in the club need to make it rain  
Got a Bentley outside on fancy rims  
Fake million dollar niggas won't buy no drinks [what?]  
It ain't trickin if you got it  
Got something erotic,  
Got down to my ass and I never been naughty  
I'm bout it  
Yeah I'm bout it  
You still can't crash my party

You see me over here  
Party VIP  
I bet you wanna come and get face to face with me  
You wanna crash my party  
You wanna crash my party  
You wanna crash my party  
You wanna crash my party

It's gettin hot in here  
Sweat from my neck  
Drippin my breasts  
Dancin so long, it's time to get rest [get rest]  
Who wanna come save me?  
I need a man who can treat it like a lady  
Or buy me a Mercedes  
South Beach, hot spot, club goin crazy

Yeah, we got the club goin crazy  
You chillin at your table  
We dancin on the bars  
It's gettin super freaky  
you dreamin' bout menage  
Dance so hard  
Lookin so bored  
Wanna come crash  
Nigga haul ass  
This girls gone wild, take it to the back  
You crampin our style

You see me over here  
Party VIP  
I bet you wanna come and get face to face with me  
You wanna crash my party  
You wanna crash my party  
You wanna crash my party  
You wanna crash my party

If you don't know how to party then you should go  
home  
You should go home  
You should go home  
If you don't know how to party then you should go  
home  
You should go home  
You should go home  
I'm stickin, I'm rollin  
It's five in the mornin  
they out of Patron and  
Cut through the dance floor, make some room  
My frontman look like the legion of doom  
Backdoor eggs that crank up, voom  
Bout to head to the after hours till bout noon  
Yeah, till bout noon

You see me over here  
Party VIP  
I bet you wanna come and get face to face with me  
You wanna crash my party  
You wanna crash my party  
You wanna crash my party  
You wanna crash my party

Wham, wham, wham, wham  
Watch the booty go  
Watch the booty go  
Wham, wham, wham, wham  
Watch the booty go  
Watch the booty go

Wham, wham, wham, wham  
Watch the booty go  
Watch the booty go  
Wham, wham, wham, wham

You been lookin at it  
All night long  
That the booty  
It goes,  
Wham.

You see me over here  
Party VIP  
I bet you wanna come and get face to face with me  
You wanna crash my party  
You wanna crash my party  
You wanna crash my party  
You wanna crash my party
