Mama I wanna thank you  
For sharing your blessings upon me  
Taking time to understand the lady I wanna be

Yes, mama  
Mama I wanna thank you  
For sharing your blessings upon me  
Taking time to understand the lady I wanna be

This cold world had me numb the pain like Novocaine  
Till mama sat me down unfold the gate  
Showed me the straight path through the narrow lane  
Sunshine after rain the joy of pain  
Mama, you raised a good girl don't worry  
You used to say, ?Take it slow, Trina don't hurry?  
Use to tuck me in with the bedtime story

Now I grown up and you still there for me  
My shoulder to lean on you kept my dreams goin'  
I owe it all to you me now I got the green flowing  
And I'm gon always be yo baby  
And I cant never repay you for all the things that you  
gave me  
You raised me to be a lady and you scoot me to the  
game  
So them niggas couldn't play me

You was more than a mother you was a friend  
The greatest love of all comes from within  
I know I'll never know love like this again  
And beneath my wings you was the wind  
I love you like none other  
'Cause you can only live your whole life but only get  
one mother

Being there for me through the thick and thin  
More than a mother your my best friend  
Look within and take yo place

Sometimes I wanna run to ya  
Through the ups and downs I know I can still come to ya  
I think 'bout the things I done to ya

But through all the drama I know I'm still number one to  
ya  
Uh, look at how far you brought me  
All the things you have taught me  
Money couldn't bought me

You never wanted us to make the same mistakes  
When the game got high and they raised the stakes  
You was still in my corner to press the brace  
Till I'm ready in yo arms you kept me safe  
Through the thick and thin I'm gon be there for ya  
I say a prayer for ya, Lord knows I care for ya

Through hard times we got strong or mother to  
daughter  
When I was weak you was my bridge over trouble water  
Can't nobody replace you, I'm forever faithful  
For you mama I'm grateful

Your baby girl is a reflection of you  
I thank the Lord up above 'cause he blessed me with  
you, uh  
I love you like none other  
'Cause you can live your whole life but you can only get  
one mother

Yes, mama  
Mama I wanna thank you  
For sharing your blessings upon me  
(Oh mama)  
Taking time to understand  
The lady I wanna be

Yes, mama  
Mama I wanna thank you  
For sharing your blessings upon me  
(Oh mama)  
Taking time to understand  
The lady I wanna be
