[Chorus: X2]

You're my lil secret
That's the way we should keep it
Yeah, you got a man
He ain't really got to know
Yeah, I got a girl
She ain't really got to know
We can keep it private
And keep it on the low

You're my lil secret, that's how we should keep it
I won't tell my friends
Don't nobody gotta know
Whateva that you need boy, you can come to me boy
See I'm independent and I make my own dough
We can do whateva
I can do it better
We can take a private flight & get away and go
You can call me baby, I can be your lady
Soon as you get ready, won't you let your girl know
Cuz baby if you won't tell, I won't either
Take this trip with a rock star diva
You don't need her and I don't need him either
I promise if you do it, you'll be wishin' you could leave
her

[Chorus: X2]

You're my lil secret
That's the way we should keep it
Yeah, you got a man
He ain't really got to know
Yeah, I got a girl, she ain't really got to know

We can keep it private
And keep it on the low

I got trust in the world when I'm thinkin of you
Yeah I got a man, but I'm thinkin bout you
He don't know how to get it wet and do the things you
do
I can't put it in no other words
I'm so open with you

We both know its wrong, I think that's why we do it
We can't stay long, so we get right to it
We do it
Pillow talk and get back to it
The bed be so wet, I just love the way you do it
Ooo-wee-babyy when you touch my body, I go crazy
I be bout to lose my mind, on the daily
Reminisclin' on the love you gave me

[Chorus: X2]

You're my lil secret
That's the way we should keep it
Yeah, you got a man
But he ain't really got to know
Yeah, I got a girl she ain't really got to know
We can keep it private
And keep it on the low

[Chorus: X2]

Cuz you're my secret
I won't tell nobody
How I give you my love, kisses & hugs
If nobody knows, they can't break us up
