Hook:]

I wish I knew then what I know now I wish I could seen it
then, then I wouldn't be hurting now, why am I back in
the same mess again, stressed again, brain wrestling,
I should known u were just like the rest of them, u, u
hurt me just like the rest of them, It's coo, I'll get over u
just like the rest of them, n you will come back just like
the rest of them, them them

Yeah u got over this time,
But it ain't gone be a next time,
It ain't gone be like last time when I took u back cause
you was crying,
Cause last time u said it was your last time,
But guess what last time was your last time,
Telling me it was your last time,
Hold up
But nigga you tried me talking bout you will die for me
u looked dead at me n u lied to me,
U was chasing me, now u trying me
Oh yeah
U know who u dealing with bra,
Uh huh
I'll replace u real quick bra,
I swear 2 god u make me sick bra

Rapping is just what I does,
Gamin niggas is what I love,
How ya gonna leave a bread winner,
For a chicken head dinner,
