[Pamela Long]

Playa, yeah, yeah

Yeah, yeah, yeah, yeah

Yeah-yeah, yeah

[1 - Pamela Long]

Take me place where I ain't gotta be sexy

Just so I can be considered a lady

Please tell me why the world is so shady, baby

I wanna go to a world where I ain't gotta be a freak ho

Just so I can be noticed by people

Please tell me if you know

Because I wanna go, wanna go, yeah, yeah

[Trina]

Why is it lately?

These jealous hoes gotta hate me

Niggas won't give me no space

They suffocate me

I try to be myself niggas won't let me

They'd rather sweat me

Ice, freeze, and briget me

But I ain't impressed with your hot car

Nigga I ain't got the lock jaws

I ain't fixin' to drop draw's

These niggas chase me like a cop-cop

In and out the Char' bottle

They wanna ball with a hot star

They offer me grands for one night stands

Fuck that one night plan

I'm looking for that one right man

To save the day, wrap me in his arms

Take me away, late plight till the break in the day

Come on

[Repeat 1]

[Trina]

Take me to a place where all my girls on top

Take me to a place where all the Benzes drop top

Take me to a place where I ain't gotta trick for grands

Take me to a place where my friend won't fuck my man
Take me to a place where it's women with no hoes
Take me to a place where the thugs get early parole
Take me to a place where we ball, buying cases
Diamond faces, united with all races
Take me to a place where ain't no chalk traces or court
cases
Or black faces on front pages
Take me to a place where the haters don't hate
Take me away, Lord knows I can't wait, come on

[Repeat 1]

[Trina]

Every day I gotta let it go
And spend the money on the one way ticket
To a world where shit is better yo
I be the same but a better ho
And do a version of Nann with Kirk Franklin for the
chedda yo
They'll show my video on VH1, diva week
Me, Whitney, then Aretha speak
I be on top of the world and still be a freak
Although I'm doing my thing
I see I gotta eat cause where I'm from
Life ain't sweet

[Repeat 1]

[Pamela Long]

Take me, take me baby
Where I wanna go baby
I don't wanna be a freak ho
No more, more
Take me, take me baby
Where I wanna go baby
I don't wanna be a freak ho
No more, more

[Repeat 1]
