Pamela Long]

Playa, yeah, yeah

Yeah, yeah, yeah, yeah

Yeah-yeah, yeah

[1 - Pamela Long]

Take me place where I ain't gotta be sexy

Just so I can be considered a lady

Please tell me why the world is so shady, baby

I wanna go to a world where I ain't gotta be a freak ho

Just so I can be noticed by people

Please tell me if you know

Because I wanna go, wanna go, yeah, yeah

[Trina]

Why is it lately?

These jealous hoes gotta hate me

Niggas won't give me no space

They suffocate me

I try to be myself niggas won't let me

They'd rather sweat me

Ice, freeze, and briget me

But I ain't impressed with your hot car

Nigga I ain't got the lock jaws

I ain't fixin' to drop draw's

These niggas chase me like a cop-cop

In and out the Char' bottle

They wanna ball with a hot star

They offer me grands for one night stands

Fuck that one night plan

I'm looking for that one right man

To save the day, wrap me in his arms

Take me away, late plight till the break in the day

Come on

[Repeat 1]

[Trina]

Take me to a place where all my girls on top

Take me to a place where all the Benzes drop top

Take me to a place where I ain't gotta trick for grands

Take me to a place where my friend won't fuck my man

Take me to a place where it's women with no hoes

Take me to a place where the thugs get early parole

Take me to a place where we ball, buying cases

Diamond faces, united with all races

Take me to a place where ain't no chalk traces or court cases

Or black faces on front pages

Take me to a place where the haters don't hate

Take me away, Lord knows I can't wait, come on

[Repeat 1]

[Trina]

Every day I gotta let it go

And spend the money on the one way ticket

To a world where shit is better yo

I be the same but a better ho

And do a version of Nann with Kirk Franklin for the
chedda yo

They'll show my video on VH1, diva week

Me, Whitney, then Aretha speak

I be on top of the world and still be a freak

Although I'm doing my thing

I see I gotta eat cause where I'm from

Life ain't sweet

[Repeat 1]

[Pamela Long]

Take me, take me baby

Where I wanna go baby

I don't wanna be a freak ho

No more, more

Take me, take me baby

Where I wanna go baby

I don't wanna be a freak ho

No more, more

[Repeat 1]
