Can't put my finger on it
It's running through my brain
Can't put my finger on it
I'm losing time again
Can't put my finger on it
No stopping up this hole
Can't put my finger on it

I sit
And watch the world go by
I wait
And I don't even know why
You know I listen to your voice
It runs through my brain
And then I wonder
What is it I was thinking

Can't put my finger on it
No stopping up this hole
Can't put my finger on it
I'm losing control
Can't put my finger on it
Got no place to hide
Can't put my finger on it

Now something seems so terrible and wonderful in one
You know I feel the need to learn to run
I jump so high that my feet touch the sky

Can't put my finger on it
It's running through my brain
Can't put my finger on it
I'm losing time again
Can't put my finger on it
No stopping up this hole
Can't put my finger on it
