A story lies behind your eyes  
And I know  
A story lies behind your pride  
And I know

These things we hold indefinitely  
Wanting to be free  
The strings we tie remind us  
Over and over again

I wanted to write the world for you  
Give you new eyes to see  
I wanted to right the world for you  
To set you free

A history built on a thousand lies  
And I know  
A history fallen from seeded skies  
And I know

Desperately wanting identity  
Hoping for what could be  
Clinging to reach ahead and see  
While falling all over the past

I wanted to write the world for you  
Give you new eyes to see  
I wanted to right the world for you  
To set you free
