I said You and me, we see in circles  
Not so unfamiliar  
We reach we touch  
Move together  
Unh together

A love on the inside shinging through  
No need to be spoken that much we can do  
Mmmm I just want to feel you  
I said I love when I walk with you  
I want to take your hand  
Breathe your every motion  
Love when I talk with you well  
You fill me with such deep devotion

I can see in my mind  
A love so rare, so divine  
When I look at you  
I can hardly hardly believe my eyes

A love on the inside shinging through  
No need to be spoken that much we can do  
I just want to feel you  
Love when I walk with you  
I want to take your hand  
Breathe your every motion  
Love when I talk with you well  
You fill me with such deep devotion

I said love love  
I said love  
I wanna walk the walk  
I wanna talk the talk  
I wanna live with you every day of my life
