Say let it go
Say let it go

You say that you need some space away from me
You say that it's over all the time
You tell me you think you found another girl
You tell me you think you found another girl

I know that you and me are meant to be
though times you say you just don't care
I know that you don't mean what you say to me
and I know you'll be with me - forever

You said that you'd be there, that you'd rescue me
You said that you'd never ever go
Was this a dream, did I imagine it?
Was this a dream, did I imagine it?

I know that if you listen to your heart,
you'd never risk to let this go
So I know you don't mean what you say to me,
and I know you'll be with me - forever.

So I know you don't mean what you say to me
You'd never risk (repeat 11x)
You'd never risk to let this go

Forever
