Fear me not; I am one
Taste my soul; face the sun
Life will rise, like a spear
We are now; quench the fear
Fear me not; I am two
Touch yourself, who are you?
What came first, god or man?
Jesus came, in my hands

"Hear the sound of horses riding
Can you feel the thunder call?
Storm clouds gather in the distance
Soon the burning rain shall fall
Hear the sound of structures falling
Can you hear the dream that die?
Hear the song of people crying
There's a smell to life that dies"

Fear me not; I am three
Man and beast; be conceived
Stars will fall, just like ash
Read the signs, on my back
Fear me not; I am four
Touch the flame; like before
Every man, is a star
Taste the sperm, of my heart
