"Come Close"

Visit "[Come Close](#)" on MotoLyrics.com

Set the scene, in the beginning was God
He was holy, glorious and He was wise
If anyone tries, to question His power
Tell them cowards, you really don't buy it
He's really so fly, He don't need no assistance
He made everything spoke it into existence
Creation listened, with no resistance
What kinda powerful God is this?
I'm tripping sometimes I stop and just gaze
I'm so amazed that He made this in 6 days
Made land, made man, but man made a mistake
Men ate fruit now we all in a sin state
But don't think He's no match for the serpent He
Smashes His adversaries, laughs at adversity
They plan, they scam, but they ain't got a good fate
The seed of the woman will smash on the serpent's
seed
Time goes, guys grow mo and mo sin filled
God grows, tired though, He's hatred for their sin
builds
Because they lacked great faith and love
God showed that He reigned with a flood
He showed His hatred for sin that sits in mens hearts
And the grace He extends to men on His ark
He's amazing man, His great works are a testimony to
His person
And I'm so blessed He knows me

Come close, tell me what do you see?
It's God and that's something to see
You wanna know who the boss is?
Flip through His narrative, switch through His character
Come close, tell me what do you see?
It's God and that's something to see
You wanna know who the boss is?
Take a look at His works you can see I'd

Aye Abraham, Isaac, Jacob, Joseph in the hands of
Yahweh how they showed
Us/How raw our God is never say no/ ask Pharaoh let
go my people like ego/

They know who so parted the Red Seas//plans to
redeem through Abraham's
Seed/ Here comes another parting through the Jordan
waters/ God is such an
Artist should be askin' for His auto-graph/this ain't the
half my
Brother/that God reveals like peeling the covers/back
His attributes and
Acts/that we will see when we go in OT/but-what I aint
talkin' bout
Overtime/the Old Testament see the plagues and
pestilence/that reveals how
Holy God is/so much so that even armies had to bow
down/look at Jericho the
Walls had to let em go/who can tell Him no dawg betta
let em know who can
Stay afloat when God got the levees broke/see for His
glory/it will get
Gory/yet at the same time the same God of Jacob/the
same God of Joseph and
Caleb/Can take a sinner man and make em a
nation/make laws just to show off
His power and patients

Let the Gospels introduce you to the Lamb and the light
In Revelation He returns as the Lion with the might
He runs the urban jungle crushed my burden to the law
Took a bite out of sin/ Got death in His claw
He demonstrates his power over death, sickness
Over Nature, over evil over time and distance
All power is in his hand, when they thought he was
ruined
But he rose from the grave like "How you doing"
He established the church and working hard like
adrenaline
But Satan and the world they want to pump us with
Ritalin
Gotta keep running whether in your bapes or
timberland
Perseverance of the saints, baby there is no giving in
Now the Holy Spirit provides gifts for the church
So we can build one another and complete his works
What does this say about Jehovah, He so consistent
Man falls man repents man is freed from his prison
All by His power, through His mercy and His grace
So man will stop worshiping self and seek his face
We live the great commandment then do the great
commission
So we see 20/20, continue the family business
