"We Told Em"

Visit "[We Told Em](#)" on MotoLyrics.com

We like to talk a lot, about how we running this Christian
race
But then when it comes time to walk it out, nah we don't
never want to get
In place
We don't even know what it's all about, there's a
problem going on with the
Saints
In church Sunday, but that's all we got, and the rest of
the world gon miss
His grace
We see them in the parking lot, we tell them all their
sinners and they're
Missing Christ
We got a couple scriptures we start to drop, but we got
to be a witness,
Got to live that life
But nah we just talking stuff, we off in the cut, when it
comes time to
Shine His light
But we got to rep the cross and His blood, got to walk in
love,
Got to show cats the mind of Christ
We told them, that we this and that, we live and act how
all should
Now let's show them that these Christian cats ain't
really wack, it's all
Good
We wildin', now they think of Christians, think we
tripping that ain't cool
We foul and, now they think He's missing, bro let's
show them what it do

If we gon get it for the Lord, then we gotta get on one
accord
It's time we pick up all our swords, let's show em we
Christians
If we gon get it for the Lord, then we gotta get on one
accord
We told em we Christians, now let's show em we
Christians

They don't take us serious even though we be talking a
good game
They poke fun and they jeer at us, probably 'cause we
don't walk how we
Should man
Nah they ain't feeling us, no distinction we just looking
the same
It makes me furious, we don't rep Him as much as we
could man
We tell them not to curse, and to come with the church
where Jesus at
So some got a lot of words, but we ain't never got no
deeds to match
We avoid the blocks and curbs, but we try to tell them
where to meet us at
Thousands of members inside to work, but it ain't
nobody on the street with
Cats
We told them, that they welcome, that we love them
and we filled with joy
Let show them, that we willing to come to they block
where cats be killing
Boys
We slacking, we ain't showing love, we act like we can't
give them truth
Where's action, they don't know His love, let's show
them that we living
Proof

We like to brag to cats, bout how we bought by the God
who saves
And how He snatches cats, by the cross and He gets
them out the grave
We got brains that's packed with facts, bout Him who
was sent to the cross
And raised
His Word is action packed, with works and words all
about His name
So we know that's He great, but we don't reflect Him
well
So when we told em that He saves, it was hard for them
to tell
So it's time to live this thing, in light of the God who
reigns
Let's try not to cause Him pain, show them a pic of the
God who came
