Ladies and Gentlemen

Ye yeaaa, Ye yeaaa, Ye yeaaa, Ye yeaaa

Ok, Let's go

Look

Homie we all fallen, friendships ain't nothin' easy

I get done dirty often, my folks do something greezy

Feel my back on the wall and, I ask my Lord to free me

Cause yeah anger be callin, but I know my brothers  
need me

Gotta get low til I'm crawlin, try to get humble, see we...

Notice each others flaws, but sometimes it's hard to  
see me

I do folk dirty too, sins that thing we sure to do

Jesus died to reconcile, now you gotta murder you

Die to self so much that you get convicted of murder  
too, attacking me

Instead of them

Something I must learn to do

Revenge I heard of you, no I ain't scurred of you

Cause Jesus died to kill you in me, so I scrrr from you

Look I've been raised with Him, taken out them chains  
in Him

Tryin to put off anger, wrath, malice all them things in  
em

Put on meekness, kindness, patience every fight can't  
win em

Used to hold a grudge against them, lately I forgave  
em

It gets hard tryna to bear with my kind

But I gotta keep the gospel in mind

Since He rose with my life, it ain't mine

I'm a bear with ya, I'm a bear with ya

It gets hard tryna to bear with my kind

But I gotta keep the gospel in mind

Since He rose with my life, it ain't mine

I'm a bear with ya, I'm a bear with ya

You already know to bear with'em bro (we, we, we gotta

bear)

You already know to bear with'em bro (eh, eh, we gotta bear)

You already know to bear with'em bro bro (we, we, we gotta bear)

You already know to bear with'em bro (eh, eh)

I know of two homies, one dude had borrowed paper  
He took two hundred forty, he'd repay all of it later  
He was trippin on em, was callin something major  
And errbody knows can't do that when it comes to paper

He hit him on the phone, but he ignored the calls  
Text message, e-mail, but he ignored it all (whaa)  
He saw him at the mall, It was a scary picture  
He just dapped his homie up, (like whaa), like I'm a bear with ya

What about this married couple (whaa), been married 10 years

Before they tied tha knot, the husbands role had been clear (but whaa)

But then they life started, he seemed really sincere  
But wrestled with laziness, been unemployed for six years

Was supposed to get a job, while she was out the house

But then she got home, he ain't got off the couch  
Yea she was grieved a lot, got up in his face though  
(Like whaa) like I'm a bear with ya baby cause tha King rose

It gets hard tryna to bear with my kind  
But I gotta keep the gospel in mind  
Since He rose with my life, it ain't mine  
I'm a bear with ya, I'm a bear with ya

It gets hard tryna to bear with my kind  
But I gotta keep the gospel in mind  
Since He rose with my life, it ain't mine  
I'm a bear with ya, I'm a bear with ya

You already know to bear with'em bro (we, we, we gotta bear)

You already know to bear with'em bro (eh, eh, we gotta bear)

You already know to bear with'em bro (we, we, we gotta bear)

You already know to bear with'em bro (eh, eh)

Ok

Life done been crumby, since I been walkin a young'n  
Call me different or funny, wish I could change it like  
money  
Grew up off in the country, we're lookin different n  
funny  
Stupid head or just ugly, no matter what it kept comin  
Askin' my momma where daddy, he ain't here to  
protect me  
Teach me, raise me, or carry my load when it get heavy  
So I did it on my own, fightn carryin on  
It don't matter what they told me dawg, I thought I was  
grown  
People tell me that I'm trippin, n I tell them they wrong  
All the while I'm actin out, blamin my daddy who gone  
Fast forward by 10, when God saved me from sin  
And He changed my heart from dark to light to show to  
all men  
And I got the conviction, call him up and stop trippin  
That's when I found out he's a Christian, who got saved  
in omission  
That's when it goes past religion, and then it makes an  
incision  
Into your heart n then you start forgivin, man and start  
buildin

It gets hard tryna to bear with my kind  
But I gotta keep the gospel in mind  
Since He rose with my life, it ain't mine  
I'm a bear with ya, I'm a bear with ya

It gets hard tryna to bear with my kind  
But I gotta keep the gospel in mind  
Since He rose with my life, it ain't mine  
I'm a bear with ya, I'm a bear with ya

You already know to bear with'em bro  
You already know to bear with'em bro  
You already know to bear with'em bro  
You already know to bear with'em bro

Where are my folks who sayin "I'm a confront you of  
your sin, but I'm a  
Forgive you as I've been forgiven, I ain't gonna hold it  
against you"  
Let's walk together
