Hey I was born less than human  
I know it sounds crazy  
But I was really born a robot as a baby  
No real life in me, I just played my role  
No self control, I just did what I was told  
I got my first order, I was just a day old  
But I didn't have a chance, cause my heart was way  
cold  
My heart took the order, I couldn't break the mold  
Sold under bondage and I couldn't take control  
So I was just chilling in my robot clothes  
With my robot friends, and my robot flows  
Living robot ways, cause that's all I know  
Till I heard I could be freed from my robot soul, I'm  
Like...

Hook  
Why you always trying to control me?  
You are not my boss that's the old me  
Obviously you don't know my style  
'Cause I'm not a, I'm not a robot now  
I'm not a, I'm not a, I'm not a Robot  
I'm not a, I'm not a Robot now (2X)

Verse 2:  
The crazy thing is I ain't know I was robot  
So I ain't have a whole lot of plans for me to rollout  
I thought I was unique, I thought I was so hot  
But I was just like them other drones, I was so locked  
Brainwashed, I was listening to lies  
The freedom that I thought I had was really a mirage  
I made my own choices, but it was a disguise  
The only thing I really did was pick a different lie  
So I was still a drone, nothing but a clone  
I only knew the lies cause that's all that I was shown  
But I been remade, my heart is no longer stone  
Where my X-Robots who can sing this song?  
Now I've been remade, I'm no longer hollow  
A real man came, changed everything that I know  
He gave me truth, that's a hard pill to swallow  
He gave me new commands, and he freed me up to

follow

Hook

Bridge:

I am not your robot, I am not a clone  
You are not my puppeteer and I am not a drone  
Got a new master and I follow Him alone  
I want a good life till I'm gone

Verse 3:

Hey world, you know I see your game  
And I don't need your lies, I ain't worried bout a  
Thing  
Hey devil, I know you want me chained  
But you have been defeated, and your power has been  
Drained  
Hey flesh, I know you bear my name  
I know you love the lies, but I'm steady tryna change  
You mighta been confused, but this a new day  
I'm saved now, I ain't gotta do what you say!  
To my friends, who are still on lockdown  
Still controlled by their passions, stop now  
He can free everybody from the top down  
If you're freed up, say this with me right now

I'm not a, I'm not a Robot now  
I'm not a, I'm not a Robot now  
I'm not a, I'm not a, I am not a Robot  
I'm not a, I'm not a Robot now
