It's the way you move your little body (just the way that I like)

Looking like you feel a little naughty (we can get it so tight)

Those clicks are driving me crazy (taking over my brain)

If you're feeling like you wanna play tonight than girl just slide my way

Then she turned to me

Something in her eyes was saying dance with me

There was nothing I could say

I was like whoa

Gotta get this girl to the floor

Make her body wanna scream for more

So hot, wanna lose control

Girl, you're looking good to go

Whoa, looking bright, wanna let me see

Can you feel what you're doing to me

Cuz I know I got what you need

You're looking good to go

Now it's on and I can't control it (the way you're dancing on me)

It's in your eyes, I know that you want it (maybe we'd need some privacy)

Let's drop the lights and get our freak on (girl you drive me insane)

So if you're feeling like you wanna play tonight than girl just slide my way

Then she turned to me

Something in her eyes was saying dance with me

There was nothing I could say

I was like whoa

Gotta get this girl to the floor

Make her body wanna scream for more

So hot, wanna lose control

Girl, you're looking good to go

Whoa, looking bright, wanna let me see
Can you feel what you're doing to me
Cuz I know I got what you need
You're looking good to go

Whoa, get to floor and scream for more
Let's lose control, you're good to go
Girl, let me see, doing to me
Cuz I got what you need, you're good to go
(You're looking good to go)

Got what you need

I was like whoa
Gotta get this girl to the floor
Make her body wanna scream for more
So hot, wanna lose control
Girl, you're looking good to go

Whoa, looking bright, wanna let me see
Can you feel what you're doing to me
Cuz I know I got what you need
You're looking good to go

I was like whoa
Gotta get this girl to the floor
Make her body wanna scream for more
So hot, wanna lose control
Girl, you're looking good to go

Whoa, looking bright, wanna let me see
Can you feel what you're doing to me
Cuz I know I got what you need
You're looking good to go

I was like whoa
Gotta get this girl to the floor
Make her body wanna scream for more
So hot, wanna lose control
Girl, you're looking good to go

Whoa, looking bright, wanna let me see
Can you feel what you're doing to me
Cuz I know I got what you need
You're looking good to go
