I think that I  
Wanna try  
Getting work with the guy  
Who makes the plastic television sets for Ikea  
So they can put em on show

I think they must  
Cost a lot  
They look real and they're not  
They're only fake and they put em on the shelves at  
Ikea  
So when the customers go  
And wonder what the stuff would lool like at home  
It's all set up so they know

I'd have to learn about plastics and all the industrial  
techniques  
I could branch out on a sideline and make plastic food  
that you can't eat  
And plastic trees  
But my first love is TVs

I'll make them big  
Make them fake  
There's a lot that's at stake  
I'd serve the world by making plastic stuff for Ikea  
The stuff that isn't for sale

You feel so good  
So at ease  
There's no grime or disease  
My plastic stuff would make the customers feel happier  
Plastic world at Ikea

There's no electrical problems on a plastic cd player  
And you can't hurt your back carrying a hollow fridge  
You'll never see a singe murder on the blank screen of  
the telly  
Plastic printers don't use paper not a single tree is  
killed

I think that I  
Wanna try  
Getting work with the guy  
Who makes the plastic television sets for Ikea
