Let's take a walk, my love  
Down by the river, my baby  
Down where we used to go  
Until the day when we found that body

Let's not forget, my love  
It was our favourite spot once  
Please don't let one bloated corpse  
Ruin all our memories

I know you slipped down a muddy embankment  
And landed on a rotting body  
But please don't let that spoil that place for you  
'Cause don't forget, we've kissed there, too!

(Oh, come on baby, get over it! I love you so much  
better than that dead body! I'd hate to think our  
relationship hung by a thread of whether we saw a  
body or not. Hey look, I've kept a memento! It's the  
stick we poked it with! Oh, come on baby! )

Oh, the memories were fantastic  
Except for one guy wrapped in plastic  
Down where we used to go  
Until the day when we found that body
