Well now honey, we've had a good life, you and me
All these years we've been so happy
But now lately, things just ain't working
So I think it's time to just let it be

That's why I'm sending you this text message
To let you know we're through... concisely

It was great
(G-R-8)
To be
(2-B)
With you
(W-I-T-H-U)
But now honey
(H-1-E)
We're through
(T-H-R-U)

I wish that I had predicted that it would end this way
Just like my phone can predict what I wanna say

It was ace
(Bad - cad - ace)
And I hate
(Have - cave - gate - hate)
To lose
(Lord - lose - lore - argh! - Jose - kore - jord - lord - lose)
What we had, you and I
Well, I'm not the right guy
I don't wanna see you cry
I'd rather did... die.
