A touch of Evil And the witchblood Runs through her  
Spine Winterfrozen blood in my heart Lady Evil of  
firesign Once came down  
I might have lost my way and mind My true possession  
fairy wisdom Burn  
Angelwitch Ablaze my pain Burn Witch Burn Tears in  
flames I slaughter the  
Time, the moon is on fire I chase the demons away so  
they can wonder free  
A winterwitch's dance Brings out river eyes With  
melting blood I silently  
Yearn where The light dies and rain burns Burn  
Angelwitch Ablaze my pain  
Burn Witch Burn Tears in flames They feed my  
Darkness I'm mindless and  
Godless I cry with my eyes closed Until the rain ends to  
fall
