I can feel it now, stronger than ever  
Closer to Death among the Dead  
One step nearer to drown in my own tears  
And sleep myself away

Away from you, away from anger  
Away from them, away from you

You, my first and last  
I, the last and forever Death  
The only sun to shine on every worthless God

Time to say goodbye, I take my life  
I enblack this lie, I surrender  
To the tears I once knew  
With me i take wounded as the wind  
The silence, the Darkness and  
The saddest solitude I know  
The hatred, sorrow and madness I own  
But i still believe...  
As Death says mine

In sadness I sleep in the fire  
Dreamin alone as the flames embraces  
All my dreams and far beyond  
To belong is to die inside  
With a charred Heart

You can't escape  
Wrath telling Heaven or Hell  
You will not escape Death  
When i give you all my hate

Looking up to the sky  
Never thought the tears of my heart  
Where about to freeze like the dew  
In a fallen winter

Come enchantin Death  
Open your wound and  
Let me lick you maggots away  
No signs of blood but still

Chanted by your golden rain

I can see myself drinkin your endless tears  
Of a solitary endless shadow  
Tryin to solidify my Darkness  
As the rain falls within without a tear

Nothin more for me here  
In freak mindics Hell  
Laughing everytime I die and cry  
Tomorrow they'll breath goodbye a little more  
When strength is only Wrath without a tear

Bring to me your rotting angel  
And you'll see how much i still hate  
As the Dark light cuts my smile  
I'll deny my Darkness in an endless  
Abyss of pleasure  
While your own blood shall burst  
Into flames at the end  
And I know they'll die in a sprectum  
That never was...

Time to say goodbye, I take their lifes  
I enblack my lie, I surrender  
To the tears I once knew  
With me i take wounded as the wind  
The silence, the Darkness and  
The saddest solitude I saw  
The hatred, sorrow and madness I own  
But i still believe...  
As Death says mine
