In my sleep called Death I was flying high like
Dust From the Ashes of a Witch I'm now One with
Darkness I'm a burier of
Sadness & Solitud Tears belong only to me And the
infinitive Ones Through
Winds of sacrifice I counted my tombs In my prays to
the Godz I said Mark
My words No longer pain shall be suffering life Before I
enter the sleep
Called Death Say your Final lament In our Last Grief
Earth blamed me for
What I once was But no more shall be Tears belong
only to me And the
Infinitive Ones Through Winds of sacrifice I counted my
tombs In my prays
To the Godz I said Mark my words No longer pain shall
be suffering life
