As I watch down below  
The remains of the human race  
To reveal the last confess of an  
Evil revival

A force in front of evil ones  
With fire eyes, men of thunder  
Malignancy the root of the past  
Mankind rest in peace

Envy the dead, we will yearn for our death  
Silence is the peace for the one I search

As I burn down the bridge...  
Behind me my inflamed path I leave  
Into dust and ashes, a future wish  
Pain of the flesh in a rotten grave  
With sinful pain and immortal seed  
A last try to revive and smell the  
Slowly withering wreath  
A new kingdom to come  
Awaiting the enthroned of the Ungod

Envy the dead

I walk through the plains  
Visions of horror  
A few survivors just to suffer

Winds of doom  
Blows across this desert  
Too late to be wise  
There is no time for remorse  
Just envy the dead

A burning twisted cross ahead  
Something for all of us to fear  
Resent age of undying wrath  
Will lead us all into an eternal  
Embrace of darkness

Envy the dead, we will yearn for our death

Silence is the peace for the one I search
