Come on pretty baby  
Put your party dress on  
Come on won't you rock-it  
With me all night long  
Can't we lovey-dovey like the  
Way we used to do before  
That's what I like

CHORUS:

Let me take you home tonite  
Everything will be alright  
Baby, let me get next to you

Don't you try and tell me girl  
That I'm not your style,  
Come on get to know me  
For a little while  
Can't we lovey-dovey like the  
Way we used to do before  
That's what I like

CHORUS

The way you shake and shimmy  
Girl you drive me wild  
When you touch me girl  
You set my soul on fire  
Can't we lovey-dovey like the  
Way we used to do before  
That's what I like

CHORUS
