### "Take My Heart"

Take my heart  
I lay it out before you in my song  
I play my part  
And hope against all hope  
You play along  
Take my heart  
Take this magic from my mind  
Take my heart  
Take the dreams you always  
Hoped to find

CHORUS:

Take my song, take my heart  
Give my dreams a chance to start  
Take my song, take my heart  
Take my love

I wear a song to mask my awkward face  
The music helps to fill the empty space  
I wish that I could hide it all away  
Instead it shows in every note I play  
And I play  
And I play

CHORUS
