Everybody welcome to the show  
I gotta message that you oughta know  
Stand in the aisles  
Stand on the seats  
Clap you hands an' stomp your feet  
C'mon girl, let's raise some hell  
It's a time to scream and it's time to yell

CHORUS:

Let's tear the roof off tonite  
Tear the roof off tonite  
The fuse is ready to light  
Tear the roof off tonite

Hey listen, if you got the time  
I see a lady she's at least a nine  
She's ready to rock, ready to roll  
C'mon girl let's lose control  
Stick with me an' you'll feel alright  
As long as you stay for the show tonite

CHORUS

C'mon baby, shake me up  
My head is spinnin' like a top  
I got me a rock and roll machine  
Let's hear ya shout, hear ya scream  
Tell me that you love me like I knew you would  
The party here never felt so good

CHORUS
