Feat. Lil Crazed

Sometimes, I think to myself  
How did I love you so much  
And end up hating you this much

How could you ever, ever do this to me  
You told me you had the pieces catching you cheat on  
me  
How could you just forget about what we had  
All them good times always outweighed the bad

How could you just lie, lie right to my face  
When I could see it all along cuz you left a trace  
I didn't think that someone else could take my place  
Now I can't stand the memories, I want them to erase

Do me a favor, throw all the presents away  
You talk bullshit, I don't care what you got to say  
The sun was shining bright but now it's raining today  
I got to get this out of my head but it's on replay

I don't want to believe this is really happening  
I let you in deep inside when no girl has ever been  
But then there was a major price that I payed  
I lost my heart, now this my last serenade

How could you ever do this to me  
Tell me that you love me. then you gonna use me  
Scars are left from the cuts so deeply  
I'm sorry but I hate you  
[2x]

Do you remember all the times, the times I was there  
I stayed up to talk to you whenever you had nightmares  
When you was feeling down, I wiped away them tears  
When you was feeling pain, I made them disappear

I thought you needed me, I'm sorry for being here  
Now it's clear you got somebody else, it appears  
You cut me deep baby, it's like you used a knife  
You was my life, but now I want you out of my life

You changed way too much, nothing stayed the same  
If I never met you, maybe I wouldn't feel this pain  
I asked why did our roads have to cross  
I learned love was like a game, but the thing is I lost

I don't care, our love already hit the ground  
As I walk out I don't want you to see the tears run down  
You're a stranger now and I write my pain on this paper  
now  
To let you know I really hate, hate, hate you now

How could you ever do this to me  
Tell me that you love me. then you gonna use me  
Scars are left from the cuts so deeply  
I'm sorry but I hate you  
[2x]

Look you got to leave, I don't want you anymore  
So give me back my pride and I'm closing the door  
This situation we got at hand I can't ignore  
I keep forgetting we'll go back n forth  
Like we at war

You was the one, the one I always use to adore  
The tables turn now and I can't take no more  
I lost my pride over the love I had for you  
It's ok because the love I had was really true

But unlike you, them 3 little words was fake  
You left me with a heart aching a heartbreak  
Go on girl, go on girl baby just go  
Before you leave there's something I want u to know

I want to take back the moment of our first kiss  
I don't want to look back at this and reminisce  
I don't want you to be the one, the one I'll miss  
Because in my new life, you won't even exist

How could you ever do this to me  
Tell me that you love me. then you gonna use me  
Scars are left from the cuts so deeply  
I'm sorry but I hate you  
[2x]

See the thing is baby, I do love you  
But at the same time I hate you  
I mean don't take this all personal  
But it is what it is  
You gotta understand where I'm coming from  
My point of view, and how I'm feeling

I want you to know that I'm sorry  
But I hate you
