Visit "[Operation: Lick The Fungus](#)" on MotoLyrics.com

Smooth and silky, slimy and disgusting  
With woerms or without, lets begin  
Controlled contamination  
Of human abomination  
Mushroom powered operation  
To bring back what we were

We try to find the lost traces of reality  
Are we really destined to loose our identity  
Controlled contamination  
Of human abomination  
We bring chaos  
We bring destruction  
Operation lick the fungus  
Necromechanic junkies  
Humans under neon lights  
We - are - coming  
To take you to place where you belong  
Taste, the sweet taste of mortality  
Agents, fire is free  
Mushroom powered operation  
To bring back what we were

We try to find the lost traces of reality  
Are we reeally destined to loose our identity  
Controlled contamination  
Of human abomination  
Succes of operation  
Is now at hand
