Nothin' scares me anymore
I don't believe the news
Too many people in charge
Nobody wants to lose

Too many promises broken
Too many backs to the wall
And too much information
To make any sense of it all

Don't let nothin' bring you down
In case it's all a pack of lies
Don't let nothin' bring you down
It could all be otherwise

The wheel will turn
The stone will roll away
The sky will fall
And leave the brightness of day

Don't let nothin' bring you down
There's always somethin' you can do
Don't let nothin' bring you down
It all comes down to you
Don't let nothin' bring you down
In case it's all a pack of lies
Don't let nothin' bring you down
It could all be otherwise
Don't let nothin' bring you down ...
