"Roll With It"

I know who I'm fooling
When I'm only fooling myself
When the things that drive me crazy
Wouldn't bother no one else

But I know I've got to roll with it
Can't torture my soul with it
And maybe I can grow with it
And be a better man

When I'm down and I can't hide it
Couldn't smile if you paid me to
But I've learned not to fight it
'Cause there's nothing that I can do
I know I've got to roll with it
Can't torture my soul with it
And maybe I can grow with it
And be a better man

Roll with it
Go with it

Take the good with the bad
Take the happy with the sad
Sometimes winnin', sometimes losin'
Just like everybody else I know
I gotta roll with it
Can't torture my soul with it
Then maybe I can grow with it
And be a better man
