Well, I heard the word when the club closed down
That they're still wide awake on the north side of town
Yeah

And I hopped in my car, put the pedal to the floor

And I drove to the bar and I knocked down the door

This must be the place
This must be the place

Still rippin' it up at a half past four
I had enough, but I still want more
Yes
This is the hottest place I've ever been
And I'm ready to rock
Somebody plug me in

This must be the place
This must be the place
This must be the place

My heart is thumpin'
The music's pumpin'
The joint is jumpin'

And it's Saturday mornin' and there ain't no doubt
We'll be tearin' it down until the sun comes out
Hey
And I found me a woman and a place to hide
And I'm on a roll
Gonna go for a ride
This must be the place
