Your gonna burn me tonight
But the heats gonna be alright
All the motion you give to me, my Black Fire ecstasy
Crazy lady your jungle wild
A smoking woman war child
No better feeling then young and free
Except the motion you give to me

Girl gonna roll it
Yeah you can shake it, come on and rock it!
Black fire wanna make it?

Your on the menu baby I got a mean appetite
Go on get cooking baby make it taste just right
I'll be a hungry man sneaking inside your backdoor
Give me a mess of your motion until I can't eat no more

Girl gonna roll it
Yeah you can shake it, come on and rock it!
Black fire wanna make it?

Got to scream it sincerely black fire ecstasy
Turn up the heat and make ash!
Got to scream it sincerely black fire ecstasy
Your quite a piece of ass!
