Sunlit mornin' fog, moss covered woodland log
Trees' green leaves in the park, sweet jasmine after
dark
Mountains' glory, an ocean's story, rain and the wind
And flames born from a spark

You've got to take a look around
Stop and listen to the sounds
Appreciate everything God gave us...
Turn your frown upside down
Share the smiles that you found
Thinkin' 'bout everything God gave us

A beautiful woman's blush, rememberin' your
childhood crush
The magic of our youth, the feeling of speaking truth,

You've got to take a look around
Stop and listen to the sounds
Appreciate everything God gave us...
Turn your frown upside down
Share the smiles that you found
Thinkin' 'bout everything God gave us

Listen to the sounds what they say
Look around and round and round
There's beauty and there's love 2 x
The sky, the ground the new day,
The sky the ground and each day
There's beauty and there's life and there's love

The dreams from sleep we touch
The healing that hurts too much
Being and seeing, feelin' a feeling'

You've got to take a look around
Stop and listen to the sounds
Appreciate everything God gave us...
Turn your frown upside down
Share the smiles that you found
Thinkin' 'bout everything God gave us
