"Good Moon Morning"

Visit "[Good Moon Morning](#)" on MotoLyrics.com

Waking up to a good moon morning
Some people might find it boring but not me
It'll color your blues, what you want it to
Whatever color you need
And the day is never nearly done
Even after the setting sun goes to sleep
It's only asleep, it's only sleeping
Watch the sweet sun sleep, watch the sweet sun sleep

In people's homes people are talking
Taking all their dogs out walking down the street
And people meet, and they always meet
When their not trying to meet
And it goes on and on and on and on

Baby it's a Good Moon Morning
Baby it's a Good moon morning
Turning tides and moving space
See the grin on the Good moon's face
