Come on I like your love
Doin what you do, and say those things that you say to
me
So Come on I like your love, all your crazy stuff
I never get enough of that stuff, that crazy stuff that I
need

Yeah Come on I like your love so come on and give it up
Come on give it up, you make me nuts, you make me
crazy, you make me free

Honey I like your love, your tender but your tough
Your tender but your tough, yeah your rough
You love me like your lonely

Your not hot because your hot, baby no your not
Your hot because your cool, because your cool,
Lovin you is easy

Come on I like your love I like it so much
Your taste and your touch is sweet, the taste is so
sweet

I like your love
