Money's World

We don't have to bleed, and we don't have to burn, we
just need to be
We'll full fill our needs, we just have to learn, turn away
from greed
We weren't born to fly, we weren't born to swim, & we
aren't here to try
We are cared for free, like the birds in the sky, & the
dolphins in the sea

But not in money's world, and ain't it funny girl
How a number on paper changes everything
We live in money's world, and yeah your money's girl
You just love your ATM machine

Everything we see, is somethin' else to buy, except the
air we breathe
Spoken
So count all of your dimes, nickels that you've earned,
every penny that
You find

This is money's world, and ain't it funny girl
Presidents on cotton and linen changes things
We live in money's world, and yeah your money's girl
Go and kiss your ATM machine

Don't, don't, don't forget to save your dollars
Don't, don't, don't throw a buck away
Don't, don't, don't forget to save your dollars
Don't, don't, don't throw a buck away

Don't throw a dollar away
