I wanna wake up each day and sing a praise to the lord  
in heaven above  
and spend each night feeling alright with the woman  
that I love  
all I wanna do is erase the blue and put my mind at  
ease  
I need to get down with a rock and roll sound you know  
the music aims to please

yeah, yeah I wanna live Oh The simple life  
got to be unchained and free Oh The Simple Life

I wanna sing a song and walk along the banks of a  
running stream  
without a worry or in a hurry to hear the rat race scream  
I don't need to fly eight miles high or give the devil now  
my soul  
All I say is let me play that good time Rock and Roll

yeah, yeah I wanna live Oh The simple life  
got to be unchained and free Oh The Simple Life  
yeah, yeah I wanna live Oh The simple life  
got to be unchained and free Oh The Simple Life
