If diamonds could buy love, if laughter could buy the stars
If wishes were more than what they are
What I wouldn't do just to buy the dream I had with you
And give it all up, you know it aint much good I can go
on pretending
But I know I'd do it all again
Chorus:
Cause without love Im no one
Without love what would I do
Without you in my life
Nothing would ever be right
Id be alone with nowhere to go
Without love
Without love
It felt like you were gone, somehow the dream goes on
Baby, you're where I belong
Everythings changed and I know I'll never be the same
But somethings inside, I feel it tonight (I can't go on)
Don't you know I need you(I can't go on)
What would I do, baby, without you Baby
Chorus
Baby there's nowhere to run
Nowhere to go
Nowhere to hide
I know what's done is done
But we can make it right
I need you in my life(I do, I do, baby I do)
Chorus(2x)
