This planet keeps on spinnin'  
Around and around  
Sometimes I get confused  
It's easy to feel busy  
So I keep my eyes on you  
Chorus:  
You are the way  
That shines through the dark  
You are the truth  
That brings hope to the heart  
You are the One  
That keeps me alive  
I believe You are  
The Way, the Truth and the Life.  
And when I fear the darkness  
I cry out to You  
You shine like the morning sun  
You give me peace in my heart  
You are the only One  
Chorus  
I'll follow You all the way  
All the way to heaven  
Jesus, my Savior and my friend  
You are the way  
You are the life in me  
You are my hope  
You are my everything  
You are the way  
You are the truth  
You are the life in me  
You are the way (you are the truth)  
You are the life in me  
You are my hope (You are my dreams, my everything)  
You are the way (you are the truth)  
You are the life in me  
I'll cry out to You  
Chorus
