"You Found Me"

Visit "[You Found Me](#)" on MotoLyrics.com

I was all on my own with no where to run to
On the day you found me
And the more that I pray the more that I hear you
And the more I believe
That no one else could hold me like you do
We're never apart

Chorus:

I wanna tell you, I wanna let you know
And I wanna show you the way I feel for you
I didn't know you now anyone can see
You are my God, and you found me
I will never deny the way that you lead me
With the love that's so rare
So I made up my mind whenever you need me
I will always be there
And no one else could hold me like you do
We're never apart

Chorus

And every day I'm gonna say how I'm feelin'
In every way I wanna show that I care
My life was all wrong, but I know from now on
I'll never stop lovin' you

Chorus
