And you're loving me
I jump on top, ooh girl you're sweet
Sexually, next to me
Spoon like we were cutlery
Can't get enough of the way you spit
The sexy way you lick your lips
Waiting like all day for this
Brought my dog to brawl like Michael Vick, girl
And I can't get enough when we are at it
I keep coming back just like an addict
Everytime is like the first time
Kiss you like the first time
Girl, you've got to...

I know how, to give it to you
I know how, to give it to you (she says)
I know how, to give it to you (she says)
I know how, I know how, I know how

So I'll take you around the world, now we're off the grid
Keep it all inside, but I lost the lid
Now emotions seep to the ocean deep
And sex is on fire like a potent tree
Too much light for a broken dream
With eyes shut like they're supposed to be
With no release from the grip of the sound
Began to break ground when she noticed me, so I
Break your back there's no escape for that, your
Favorite task is how to train the dragon
Bad ones chalked up to fiction
An age old act is the new addiction
Get some, round one then we take two
Missed them but I know how to make you
Take you round the world and go wild
Put me in control you know I know how

I know how, to give it to you (she says)
I know how, to give it to you (she says)
I know how, to give it to you (she says)
I know how, I know how, I know how

I know how, to give it to you

I know how, to give it to you
I know how, to give it to you
I know how, I know how, I know how
