(Norman Saleet)

All alone
Nothing to do
It's lonely here
Without you

The candle light is burning low
A love song's on the radio
And memories are all I have to show

Photographs
Tickets for two
Promises
That all fell through

Now everything's in black and white
The colors faded with the night
The stars we used to wish upon
Have somehow lost their light

CHORUS

Where is the feeling we used to know
Where is the music that played
Oh, what happened to the love
That used to show
Where did the feeling go

A cigarette
A glass of wine
A paperback
To pass the time

As I lie awake tonight
I'll leave the porch light burning bright
And miss the loving arms
That used to hold me tight

CHORUS
