Learned a lot from you today,  
Found a way to ease your pain,  
See it all to clear again,  
Never found a better friend.

Never saw it coming,  
Never had a clue,  
Endless times that I fell away from you,  
Now you found me,  
And you'll never let me go,  
Found a way to make it through!

Tonight!

All those nights I spent alone,  
When they left me on my own,  
Time went by like everlast,  
But you wash away my past.

Never saw it coming,  
Never had a clue,  
Endless times that I fell away from you,  
Now you found me,  
And you'll never let me go,  
Found a way to make it through!

Tonight!
