I can't say no  
You got me face down on the floor  
I won't breathe  
Until you tell me how to feel  
So many jewels  
I'm part of a collection that you pull  
It's time to sell  
But I won't give up my share in you

I'm into you for the pain, just for the pain

I don't wanna let you out  
You got nowhere better to go  
I don't wanna shut you out (I don't wanna wear you out)  
I want you in my system

Hang on the line  
I drink poison everytime  
You lift me up  
Then you tease me until I'm down

I'm into you for the pain, just for the pain  
You're into me for the game, just for the game

I don't wanna let you out  
You got nowhere better to go  
I don't wanna shut you out (I don't wanna wear you out)  
I want you in my system
