Oh, let us adore him
We need his sacrifice
Oh, let us adore him
We need all he has
We need him to help
We need all he has
We need our God, we know
Won't someone help me?
We need our God
We need our God, we know
Won't someone help me?
We need our God, we know
Won't someone help me?
Let me reach for him
for we are his
Oh, please let me hold him
He wept for his kingdom

[At this point the vocals become unclear and impossible to decipher. This lasts for a few minutes.]

Oh, let us adore him
We need his sacrifice
We need all he has, o God
Let him heal us
