In my head this broken line  
make me feel like Frankenstein  
mother father what is wrong  
tell me where do I belong

Nowhere we are leaving  
nowhere  
nowhere we are leaving you

TV shake me to the bone  
king is falling off his throne  
people killing people dead  
make this fire inside my head

Nowhere we are leaving  
nowhere  
nowhere we are leaving you

Another time another place  
a changing world before my place  
there's something there we don't know where  
there's something there we don't know where

Something moving in the air  
taking everyone nowhere

Nowhere we are leaving  
nowhere  
nowhere we are leaving you
