"Spread A Little Happyness"

Even when the darkest clouds are in the sky
You mustn4t sigh and you mustn4t cry
Spread a little happyness as you go by, please try

What4s for you so worrying and feeling blue
When days are long keep on smiling through
Spread a little happyness 4till dreams come true

Surely you4ll be wise to make the best of every
bluesday
Don4t you realize you4ll find next Monday or next
Tuesday
Your golden-shoes-day

Even when the darkest clouds are in the sky
You mustn4t sigh and you mustn4t cry
Spread a little happyness as you go by

I4ve got a creed for every need
So easy that it must succeed
I4ll set it down for you to read
So please take heed:

Keep out the gloom
Let in the sun
That4s my advice to everyone"

It4s only one sweet pass this way
So day by day...

Even when the darkest clouds are in the sky
You mustn4t sigh and you mustn4t cry
Spread a little happyness as you go by
